REPORT ON “NUTRITION PROGRAMME” 13TH OCTOBER 2025

INTRODUCTION

Every good food and liquid contains some important nutrition like proteins, carbohydrate, fats, some vitamins, minerals and water. These all play different role to keep our body healthy and build new cells in our body. These are the important nutrition and their role in our body Good Nutrition Provides The Building Blocks of Muscle. When you eat foods that contain protein, they are broken down in the body as amino acids. These amino acids are then used to build and repair any muscle tissue. This is great for those who are physically active or exercise regularly.

The National Nutrition Week is celebrated in India from September 1 to September 7. This week aims to educate people about the importance of diet and nutrition in their life. Various organisations come forward to share diet tips for health and well-being. Prime Minister also asked the listeners to eat nutritious food and stay healthy during the nutrition month. Therefore, National Nutrition Week is observed every year from 1st September to 7th September to aware people of the importance of nutrition for the Human Body and wellbeing of health.

AIMS

To increase awareness about good nutrition and health.

To impart proper information and build awareness through seminars and also camps.

To give every child and citizen of India on how children can benefit from proper nutritious diet right from birth.

To address malnutrition in the country which is expected to worsen as a result of the pandemic and limited resources for nutrition

MAIN OBJECTIVES

To aware students regarding nutritional value.

To achieve sustainable food and nutrition security.

To eliminate all forms of malnutrition in order to have a well nourished and healthy population that can effectively contribute to national economic development.

To enhance the nutritional practice awareness among people of the community through the adoptable training, timely education, seminars, different competitions, road shows and many other campaigns and to make a healthy nation

REPORT ON " NUTRITION PROGRAMME"

National Nutrition week was celebrated at Gurukul Nursing Institute, Daryapur organised by Ms. Samiksha Kakade and Ms. Isha Dudhalkar on 13 October, 2025 (Monday) under the theme, "Eat Right For A Better Life". Celebration was started with Inauguration of Nutrition Program Celebration in the presence of Chief Guests, Principal sir, teaching staff and non-teaching staff.

The students of Second Semester BSc Nursing, were actively participated in the nutrition programme. In this event students prepare therapeutic diets and present their dishes creatively. The programme was celebrated efficiently and well mannered under the guidance of principal sir and with support of teaching faculty and students. At the End after the evaluation of diets prepared by the students Ms. Payal Dhajekar delivered the vote of thanks and the program was ended.

REPORT ON "MENTORING PROGRAMME" 10th DECEMBER 2025

MENTORING PROGRAMME

-PLANTING SEEDS FOR FUTURE

“It is not what you do for your children, but what you have taught them to do for themselves, that will make them successful human beings.” - Ann Landers

A mentor is more than an adviser. A mentor provides with wisdom, technical knowledge, assistance, support, empathy and respect throughout, and often beyond the career. Mentoring helps students understand how their ambitions fit into the education, college life and career choices. An effective mentoring relationship develops over time. The student benefits from the mentor's support, skills, wisdom and coaching. Later, both people deepen their working relationship, perhaps collaborating on various aspects in life. After a while, the mentee may need some separation from the mentor to test his or her own ideas. This distancing is a sign that the mentoring relationship is maturing and providing the mentee with the skills needed to function independently. Finally, both mentee and mentor may redefine their relationship as one of equals, characterized over time by informal contact and mutual assistance, thus becoming true professional colleagues.

The Mentorship Program 2025– 26 at Gurukul Nursing Institute, Daryapur focuses on this ideology of mentor mentee relationship. The Mentorship Program focuses on the overall development of the students. Student development in higher education is the integration of academic learning programs with the larger issues of personal improvement and individual growth. It is a student centered, holistic experience focused on understanding (and demonstrating) values, nurturing skills, and moving towards knowledge.

The student should be developed to be successful in his career and also should be a responsible citizen of this nation. The student should be guided on the values, ethics, soft skills and behavioral aspects for fine tuning their personality. The program focuses on the ideology, which is as under – “We cannot always build the future for our youth, but we can build our youth for the future.

“ Like every year, Mentorship Program 2025 – 26 started with the Induction and Ice breaking of the program wherein the mentees were allotted to the mentors. The various activities were conducted which instilled the essence of values and ethics in the students. The activities also helped to boost the confidence of the students.

The Mentee students are very satisfied with the Mentorship activities conducted by the institute. Mentee students also informed that they are now busy in the assignment and other submission. It is suggested to all the mentee students to take the opportunity to learn many concepts and practices of the nursing profession. Some students have an absolute problem understanding English. This academic year the mentorship program was briefly defined and executed which had four stage of mentorship activity which involved the senior most faculty members playing a role of mentors to the mentors (Super Mentors) and had a responsibility to guide and help the mentors in cases where help or guidance was required.

At the end of the program a strong bond was created between the mentors and mentees .The activities conducted boosted the confidence of the students which is required in their future life.
